

EES MUSCAT 2026

Lateral & Anterior Skull Base Surgery, Hearing Implant & New Technologies

27-29 November 2026
Oman Convention & Exhibition Centre

PROGRAM AT A GLANCE

6th World Congress on Endoscopic Ear Surgery

www.eescongress2026.com

DAY 1

FRIDAY | 27 NOV 2026

	HALL 1	HALL 2	HALL 3	HALL 4	HALL 5	HALL 6 AUDITORIUM	HALL 7
07:30 - 09:00	Closed	Closed	Closed	Closed	Closed	REGISTRATION	Registration Thyroid Master Class
09:00 - 10:30	Closed	Closed	Closed	Closed	Closed	KEYNOTE LECTURES	Updates on the latest ATA guidelines
10:30 - 11:20	Closed	Closed	Closed	Closed	Closed	OPENING CEREMONY	Closed
11:20 - 13:00	Panel: Endoscopic Attic cholesteatoma surgery: a surgical dilemma	RT: Controversy in Skull Base Osteomyelitis: Operate or Not to operate?	RT: Revision stapes surgery: Experts experience	RT: Anterior Skull Base Malignancy	Neuroradiology Session-1: Neuroradiology of Anterior and Central Skull base	Live Dissection: EES Transcanal endoscopic anatomy from EAC to IAC	KEYNOTE LECTURE Role of interventional radiology in thyroid nodules Approach to pediatric thyroid pathologies
14:00 - 16:00	RT: Scutum reconstruction in cholesteatoma surgery	RT: The small acoustic neuroma: multidisciplinary decision	Panel: Pediatric ME malformations: surgery or no surgery?	Panel: Tricky CSF leaks in anterior skull base	Neuroradiology Session-2: Imaging of the Temporal bone and middle ear for endoscopic and microscopic approaches	Live Dissection: LSB Exoscopic anatomy of the temporal bone and lateral skull base: part 1	Multidisciplinary Round Table: Management of Cancer Thyroid
16:00 - 17:30	Panel: Ossiculoplasty: comparison between endoscopic & microscopic techniques	RT: Presenting cases and asking solution to a skull base board	Panel: Come and see Session: Scary cases in Otology	Panel: Pituitary Surgery	Neuroradiology Session-3: RT: Multidisciplinary Management of Advanced skull Base Pathologies including neurointervention	Live Dissection: LSB Exoscopic anatomy of the temporal bone and lateral skull base: part 2	KEYNOTE LECTURE Surgeries, challenges & complications of thyroid surgeries

DAY 2

SATURDAY | 28 NOV 2026

	HALL 1	HALL 2	HALL 3	HALL 4	HALL 5	HALL 6 AUDITORIUM	HALL 7
08:30 - 11:20	Panel: Controversies in the Management of Temporal Bone Malignancy	Panel: Tricky CSF leaks: Lateral skull base	CI: Panel: Difficult cases in cochlear implant	Proffered papers	Audio-Vestibular: Neo-natal screening pathway to cochlear implant	Live Dissection: ASB Transnasal endoscopic anatomy of ITF and petrous apex	Young otologist oral presentation competition
11:20 - 13:00	RT: Eustachian tube dysfunction: How to treat	Panel: Endoscopy in Lateral Skull Base	CI: RT: Cochlear implant in malformed ear	Panel: Come and see: I never forget this scary case!	Audio-Vestibular: Hearing rehabilitation & challenges post CI	RT: Endoscopic management of complex pediatric cholesteatoma	Young otologist oral presentation competition
14:00 - 16:00	RT: Genetic HL - Regenerative Surgery in Inner Ear	Panel: Petrous bone cholesteatoma: a surgical dilemma	CI: RT: CI in acoustic neuroma surgery: Indications & results.	Panel: Surgery of anterior benign tumors	Audio-Vestibular: Approach to different vestibular syndromes	RT: Complications in Stapes Surgery: How to manage?	Young otologist oral presentation competition
16:00 - 17:30	Panel: Genetic HL - Diagnosis and management	RT: The Modena Skull base Experience with Experts	CI: RT: Management of Complication in Cochlear Implant Surgery: My experience	Panel: Anterior Approaches to Clivus and Posterior Fossa Tumors	Audio-Vestibular: Vestibular Rehabilitation after CI	RT: Endoscopic Eustachian Tube dilation: Indications and limitations	Young otologist oral presentation competition

DAY 3

SUNDAY | 29 NOV 2026

	HALL 1	HALL 2	HALL 3	HALL 4	HALL 5	HALL 6 AUDITORIUM	HALL 7
08:30 - 11:20	Panel: Endoscopic/microscopic Pediatric cholesteatoma: learning from clinical cases	Panel: Infratemporal fossa tumors: Transnasal versus Transtemporal Approaches?	CI; RT: Revision Cochlear Implant Surgery	Expert Group Highlight Session: Japanese Working group of Endoscopic Ear Surgery	KEYNOTE LECTURE	Live Dissection: EES Endoscopic Tympanoplasty and Scutum Reconstruction. Endoscopic Facial Nerve Surgery and Suprageniculate Approach.	Proffered Papers / Videos
11:20 - 13:00	Panel: Difficult cases in stapes surgery: when it doesn't go straight	Panel: Different surgical strategies in facial nerve tumors	CI: Panel: Totally Implantable Hearing Devices: Current Reality and Future Horizons	Expert Group Highlight Session: Korean Working group of Endoscopic Ear Surgery	KEYNOTE LECTURE	Live Dissection: ASB Transnasal endoscopic anatomy to Pituitary and anterior skull base	Proffered Papers / Videos
14:00 - 16:00	RT: Challenges in endoscopic management of complex chronic ear disease	RT: NF2 and Sporadic Acoustic neuroma: learning from clinical cases	CI: Surgical Challenges in Cochlear Implant Round table	Expert Group Highlight Session: Chinese Working group of Endoscopic Ear Surgery	Proffered Papers / Videos	Live Dissection: ASB Transnasal endoscopic anatomy to Clivus and ICA	3D CINEMA 1 - Endoscopic anatomy of middle ear 2 - Transpromontorial approach 3D 3 - Subtotal petrosectomy/ Transotic/ transcochlear approach 3D 4 - Infratemporal fossa approaches 3D 5 - Transnasal Anterior endoscopic skull base Approaches 3D 6 - Middle cranial fossa 3D
16:00 - 17:30	RT: Recurrent cholesteatoma: A Difficult decision	RT: Multidisciplinary session: Meckel's cave pathologies: Diagnosis and management	CI: Hearing Implant: Controversies Round table	Expert Group Highlight Session: Pan African Endoscopic Ear Surgery Federation (PAEESF)	Proffered Papers / Videos	Live Dissection: Endoscopic anatomy of the Posterior Cranial Fossa: Anterior and Lateral approaches	
17:30 - 18:00	ADJURN & CLOSING CEREMONY (HALL 6)					CLOSING CEREMONY
